

Description Position Overview:

Since 1968, Upham, Inc. located in Ormond Beach, Florida has been committed to providing responsive and competent professional surveying and engineering services to its clients. Upham is actively seeking a qualified Professional Surveyor and Mapper to join its team. This individual should be proficient in boundary and topographical surveys, construction and as-built surveying along with other survey related tasks. The selected individual will execute a variety of surveying duties, including but not limited to project management, client relationship and business development, supervision and training of survey staff, preparation of survey proposals and other ancillary tasks to support the growth of the firm.

Educational Requirements:

Bachelor's Degree in surveying, geography or related field of study preferred.

Active Florida Professional Surveyor and Mapper License or able to obtain within one year.

Minimum Qualifications:

Minimum 5-10 years of experience

Strong technical and interpersonal skills

Project Manager experience

Proficient in AutoCAD Civil3D and MSOffice Suite

Must have valid driver's license

Job Duties:

- Responsible for boundary surveys and right-of-way mapping for execution of projects.
- Assist in the preparation of project proposals to highlight scope of work and fee estimates.
- Develop and maintain project schedules, budgets and contract fulfillment.
- Ensure project surveying and mapping is performed in accordance with all local and state laws.
- Maintain communication with clients to ensure satisfaction through completion of each project.
- Effectively manage multiple tasks and time constraints to meet deadlines.

Compensation:

- Salary is dependent upon successful candidate's qualifications.
- 401(k) retirement plan provided.
- Aflac coverage offered.
